Old age comes at a bad time.
When you finally know everything
You start to forget everything you know!!

This newsletter will be last I will be writing/editing. The first one was in August 2019 to improve communication within the club. We have had jokes, information, competitions, kept members up to date on the build, had the weekly 'Covid Times' and more. I have had fun pulling it together and I hope you have had fun reading it. However it is time for new blood, and new impetus. **So who would like to take it on? If you like playing on a PC then you will enjoy doing this. I am happy to help on the first one you do.**

A Wrinkly Remembers!

I joined Waterlooville Bowling Club (WBC) in 1985 with my friend Dougie Gunning who has gone to the green above. Doug was recovering from a stroke and wanted some exercise so we applied for and were accepted as members of WBC after having an interview!!

In those days there were two clubs houses. One for the men and one for the ladies.

The green was grass and we had to play north-south one week and East west the next week. Before each match started we had to mark each rink stretching a length of string across the green to make six rinks.

Those were the days!

Dennis Jenkins

Dennis finds himself unable to bowl any more but having belonged to the club for 37 years the committee voted to make him a life member. Congratulations Dennis! We hope we will be getting more snippets of what bowling life was like in those days in future newsletters. Anyone else have any memories? Then please share them
